

Important Notice: AT&T Email-to-SMS Gateway Discontinuance

Starting June 17, 2025 AT&T's Email-to-SMS Messaging Gateway service will be terminated. This change will prohibit the WEB600 from being able to send text messages to AT&T mobile devices - unless your device is using the 'myweb600.com' SMTP server. In this case, text messages will be intercepted and sent using one of Sensaphone's true text-messaging providers. If you have a WEB600 and require a 'myweb600.com' SMTP account, please contact Sensaphone Technical Support at support@sensaphone.com for information on obtaining one. There is no fee for this service.

*Note: The AT&T Messaging Gateway does not affect the WEB600's ability to send email.
